

TAKE THE TOUR

On The Cutting Edge Of Metals

OVERVIEW

Founded in 2000, Loftis is a premier metals service center strategically located in Nashville, Tennessee. We offer state-of-the art material processing and delivery in a timely and cost-effective manner. We maintain a robust quality process and are both ISO 9001:2015 and IATF 16949:2016 certified.

CAPABILITIES

We carry a wide range of materials, including stainless steel, tool steel, alloys, aluminum, carbon, copper, brass, and more. Loftis also offers and maintains customer specific stocking programs to meet your unique raw material needs.

Our state-of-the art metal processing capabilities offer a wide range of services, including metal fabrication, laser cutting, waterjet cutting, plasma cutting, and precision saw cutting. Loftis has a key focus on quality, precision, innovation, and technology. We constantly invest in advanced equipment and software to improve our processes and offer new services.

We maintain a fleet of trucks and have long-standing relationships with shipping partners to deliver finished products to you. This saves time and money on transportation and logistics.

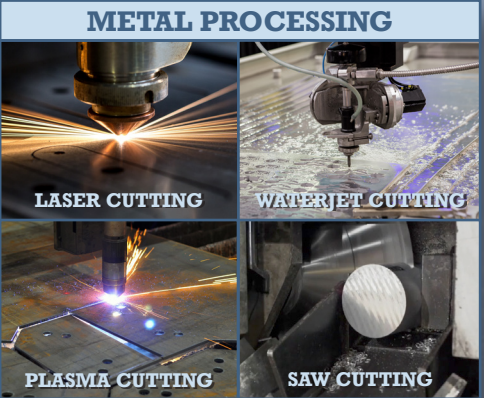

At Loftis, we are proud of our commitment to customer service. We've served over 2,500 satisfied customers throughout 30 states and 3 countries and have over 150 years of combined industry expertise to ensure success.
